Hello.

Thanks for taking time to look over my CV

Everyday I take on the challenge to inspire new and established businesses to grow into fruitful enterprises, I want clients to succeed and I enjoy working with motivated minds, I take the time to learn everything I can about a business and it's goals so they can fully benefit from my vast and varied design experience, creative ideas and drive.

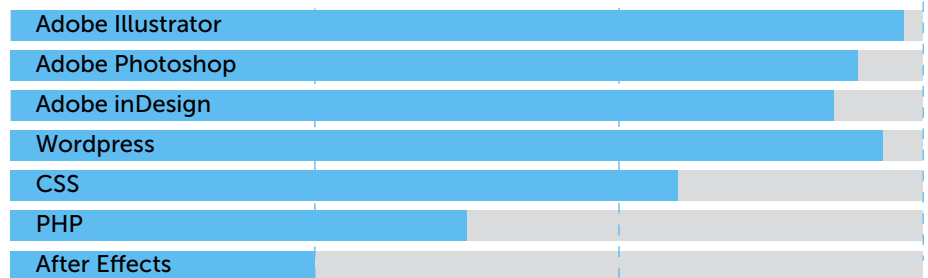

There's nothing quite so rewarding as a campaign that over achieves or to create a fresh new design that leaves a business invigorated. My deep routed design fundamentals give me the ability to offer high spec options for any brief, it is this strong background and my natural ability for graphic design that enables me to lead, teach and trust in my proven results.
